LATTER NOT FOR PEACE

Encouraged by Victories, Constantine's Army Would Complete Rout.

perial Cable Despatch to THE SUN ONDON, July 13 .- Although diplocircles at Vienna profess to beheve that the end of the Balkan war s near there has been nothing received here up to the present to justify this conviction.

A despatch from Sofia received in Paris says all the Balkan States have now turned to Russia for a solution of the trouble. To the latter's call to the allies to cease fighting M. Pasitch, the Servian Premier, replied that he must prst consult the Greek and Montenegrin Premiers and also the headquarters staff, from whom no replies have yet been received.

Various despatches report that the officials at Belgrade and Cettinje are peacefully inclined, but this is not the case at Athens. The recent Greek achievements have stiffened the backs of King Constantine and his advisers and indeed a late Athens telegram says that Servia and Greece have already replied to Russia's command by saying that peace with Bulgaria will be signed on the battlefield. It is said that the Greeks have occupied Drama and Dedeagatch.

According to the Paris Eclair Bulgaria is seeking the good offices of Italy as well as Russia in bringing about

peace.
Official confirmation comes from St. Petersburg that Russia has assured Bulgarla that Rumania can only occupy the strategic frontier as far south as have at any cost. The Rumanians meanwhile have taken 600 Bulgarian prisoners. The Bulgarians are making no resistance to the Rumanian advance.

Special Cable Despatch to THE SUN.
PARIS, July 12.—Americans in Paris have abandoned all speculation as to who will be the next Ambassador here. They are inclined to the belief that the filness of William F. It seems that the undischarged pistol which Gov. Asbert showed to President Menocal at his summer home and which was afterward turned into court was not the weapon he carried when Gen. Riva was shot. At that time he is said to have used a .38 calibre nickel plated Smith & Wesson revolver, while Arias used a .38 calibre Colt. This accounts for the difference noticed in the .38 calibre bullets which were found in Riva's body.
